MMI 291 Seminar Series
Emerging Challenges in Microbiology and Immunology
Current Theme: Interdisciplinary Research
Winter Quarter 2019 - CRN 43601

Friday Seminar - 12:10 – 1 PM

February 8, 2019
David Segal, Ph.D.
Professor
Genome Center
University of California, Davis
“A Center for Interventional Genetics”

February 15, 2019
Frank R. Sharp, M.D.
Associate Professor
Department of Neurology
UC Davis Health, University of California, Davis
“Lipopolysaccharide from Gram negative bacteria causes Alzheimer's Disease and White Matter Hyperintensities”

February 22, 2019
Stephen C. Noctor, Ph.D.
Associate Professor
MIND Institute
UC Davis Health, University of California, Davis

March 1, 2019
Mark Krasnow, M.D., Ph.D.
Professor
Biochemistry, Stanford University

March 8, 2019
Yan Xiang, Ph.D.
Professor
Microbiology, Immunology & Molecular Genetics
San Antonio, Long School of Medicine, University of Texas Health
“Interfering with interferons: immunology lessons learned from poxviruses”

March 15, 2019
Journal Club – Students Only

Sponsored by Department of Medical Microbiology & Immunology, School of Medicine, University of California, Davis.
Seminars are open to public and are intended for both specialists and community members.
