

Designated Emphasis in the Biology of Vector-Borne Diseases
(DEBVBD) presents

Annual DEBVBD Research Symposium

May 3, 2018
Putah Creek Lodge

3:15 **Opening remarks**

3:20 **Dr. Lark Coffey, UCD**

“Contrasting virulence and transmissibility in disparate hosts: a Zika virus mutation that associates with fetal death in rhesus macaques reduces transmission by *Aedes aegypti* mosquitoes”

4:05 **Graduate Student Poster Session**

5:30 **Dr. Stéphane Blanc, UMR-BGPI, Campus International de Baillarguet**

“Current research trends in the interactions between plant viruses and insect vectors”

6:15 **Dinner (space limited, RSVP required)**

Thank you to our donors!

**Pacific-Southwest Center of Excellence in Vector-Borne Diseases
U.C. Davis Medical School
Dept. of Entomology & Nematology/Graduate Program in Entomology
Graduate Group in Ecology
Dean Witter Fund
College of Agricultural and Environmental Sciences**
