

MMI 291 Seminar Series – Winter 2018
Emerging Challenges in Microbiology and Immunology
Current Theme: Interdisciplinary Research

**All seminars are held in the GBSF Auditorium (Room 1005) from 12:10 – 1 P.M.
except for March 2, 2018 -*seminar will be at MedSci 180C***

January 12, 2018

Dennis Hartigan O'Connor, M.D., Ph.D.

Department of Medical Microbiology and Immunology University of California, Davis

"Infant vaccination with RhCMV/SIV vaccines"

February 2, 2018

Peter Gaskill, Ph.D.

Department of Pharmacology & Physiology, Drexel University College of Medicine

"The Role of Dopamine in HIV Infection of the CNS"

February 9, 2018

Annie Vogel Cierna, Ph.D.

Medical Microbiology and Immunology, University of California, Santa Cruz

"Life-long consequences of early life experiences on epigenetic programming"

February 16, 2018

Greg Brennan, DVM, Ph.D.

Medical Microbiology and Immunology, University of California, Davis

"Experimental Evolution Identifies a Missense Mutation in the Vaccinia Virus RNA Polymerase that Evades dsRNA-Mediated Host Restriction Factors"

February 23, 2018 - TBA

***March 2, 2018**

MedSci 180C

Joanne Engel, M.D., Ph.D.

Division of Infectious Disease, Department of Medicine, University of California, San Francisco

March 9, 2018

Tracey Goldstein, Ph.D.

Department of Pathology, Immunology and Microbiology, University of California, San Francisco

"Global patterns in coronavirus diversity"

March 16, 2018

Smita S. Iyer, Ph.D.

Department of Pathology, Microbiology and Immunology, University of California, Davis
