

MMI 298 Seminar Series

Fall Quarter 2023 – CRN 41349

“Inclusive Excellence in Scientific Careers”

This ten-week course is designed for our students to discover how to surpass barriers to pursue a diverse path in education, training, and inclusive workplace. In this course, our students will forge new connections, learn about fellowships and job market opportunities, and expand their contact networks of scientists and leaders in STEAM fields.

The format will be a 30-minute presentation on speaker's career path, including unique challenges and opportunities, followed by 20 minutes for interactive discussion with the registered students.

*Schedule subject to change

October 3, 2023:

Megan Dennis, Associate Professor, Biochemistry and Molecular Medicine

October 10, 2023:

Pamela Reynolds, Associate Director, DataLab: Data Science and Informatics

October 17, 2023:

Chancellor Gary S. May, UC Davis Leadership

October 24, 2023:

Nicole Halmi, Postdoctoral Research Fellow, Biochemistry and Molecular Medicine

October 31, 2023:

Luis Fernando Santana, Professor and Chair, Physiology and Membrane Biology, Vice Dean for Basic Sciences

November 7, 2023:

Colleen Clancy, Associate Vice Chancellor for Academic Personnel, Professor in Physiology and Membrane Biology and Pharmacology

November 14, 2023:

Rebecca Calisi Rodríguez, Associate Professor, Neurobiology, Physiology and Behavior

November 21, 2023:

Antentor Othrell Hinton, Jr., Assistant Professor, Molecular Physiology and Biophysics, Vanderbilt University

November 28, 2023

Marie Heffern, Assistant Professor, Chemistry

December 5, 2023

Vice Chancellor Renetta Garrison Tull, Diversity, Equity and Inclusion
